

SEGUNDO AÑO "A" Y "B"

DOCENTE: CONSUELO MURGA

MATERIA: INGLÉS

SEMANA DEL 23 AL 27 DE MARZO

DEAR STUDENTS,

THESE ACTIVITIES NEED TO BE DONE AND SENT BY MARCH 26TH TO THE FOLLOWING EMAIL ADDRESS:
CMURGA@INSTITUTONSVALLECBA.EDU.AR

VERSION EN ESPAÑOL:

LAS ACTIVIDADES DEBEN SER ENVIADAS HASTA EL 26 DE MARZO AL CORREO ARRIBA MENCIONADO. CADA ACTIVIDAD NO REALIZADA, IMPLICA UN SIGNO MENOS. ASI QUE A REALIZARLAS!

CONTACT ME IN CASE YOU NEED ANY HELP!

TAKE CARE AND TRY TO STAY AT HOME,

ME BEST AND KIND REWARDS,

MISS CONSU. 😊

In this class, we are going to learn more about "Mammals" (En esta clase vamos a aprender más a cerca de los mamíferos).

The Mammals

DID YOU KNOW?

Mammals are viviparous, they are born from their mother's womb. In their early stages of life they feed on milk which they get from their mother's breast. Mammals reproduce by internal fertilization when a sperm cell and an egg join inside the female. They have teeth inside their mouths and lips around them so that they can eat and suck milk. Most mammal's bodies are covered in fur and all mammals breathe with their lungs even though they live in the sea like the dolphins and whales.

Mammals have four limbs which vary depending on where they live. Land mammals have legs, aquatic mammals or marine mammals have fins and mammals which can fly such as bats have wings.

Depending on what they eat they can be herbivores (cows), carnivores (lions) or omnivores (human beings).

ACTIVIDADES:

- 1) WATCH THIS VIDEO: (Mirar el video con atención!)

<https://happylearning.tv/en/the-mammals/>

- 2) DO THE QUIZ: "The Mammals". (Entrar al link de abajo para realizar el juego)

<https://happylearning.tv/en/quiz-mammals/>

Si no se acuerdan pueden volver a ver el video. GOOD LUCK! SUERTE!

MORE INFORMATION

Mammals have four limbs but vary in form depending on the environment in which they live. Terrestrial mammals have legs, aquatic or marine have fins and flying mammals, like bats, have wings.

If you can't answer all the questions, rewatch our video about the mammals to find all the answers.

- 3) ANSWER: What did you learn about mammals? In your own words.

(Con sus palabras, escribir qué aprendieron de los mamíferos).
